

1. Problem

A continuous random variable X was measured 21 times. The sorted measurements are shown below.

62.13	62.86	63.36	63.48	63.50	63.55	63.67
63.73	63.81	63.87	64.03	64.04	64.06	64.10
64.27	64.33	64.80	64.86	64.90	64.99	64.99

Create a boxplot representing these measurements.

2. Problem

A continuous random variable X was measured 36 times. The sorted measurements are shown below.

52.97	53.32	53.76	53.86	53.92	54.37
54.52	54.58	54.65	54.69	54.70	54.70
54.74	54.78	54.79	54.83	54.92	55.17
55.17	55.24	55.34	55.36	55.37	55.45
55.52	55.61	55.73	55.73	55.74	55.75
55.89	55.93	56.12	56.73	56.73	57.70

Create a boxplot representing these measurements.
